IgnitING your technology team

Maintaining a high performing, stable technology team is a challenge companies large and small face every day. We rise to meet that challenge.

We specialize in the following disciplines::

Digital Solutions

Web / Mobile / UI/UX

Project Management

Agile / PMI / OCM

Software Development

Architecture / Design / DevOps / Test

Data & Analytics

DW/ BI/ MDM

Key hires are instrumental to your success.

The rapidly changing world of technology means companies are constantly looking for new talent with the skills and experience needed to stay competitive. The wrong hire is not only costly but can destroy deadlines, demoralize co-workers and decrease work quality and productivity. In short, our clients can't afford bad hires.

What makes us different.

- The average DG team member has 9 years' experience in technology services

- We have placed over 550 consultants into remote & on-site technology roles

- Clients trust us: 96% of our business is referral-based

- 72% of our consultants have their contract extended

- 49% of our consultants convert to full-time roles with their client, post-assignment

- Retaining our professionals is a priority. That's why we offer a DG consultant community, quarterly events and buddy system.

Contact us to build your high-performing technology team.
